

Rapid Test VIH 1/2

Detection of HIV in less than 5 minutes!

RAPID

- Result available in 60 seconds thanks to the rapid membrane-based ELISA technology

PRACTICAL

- Only 50 µl of capillary or venous (EDTA) whole blood, serum or plasma

SIMPLE

- Single-dose vials for each test
- No timer
- No dropping bottle
- Storage at ambient temperature
- Easy-to-interpret results (points)

COMPLETE

- Accessories included (lancets, pipettes, alcohol swab)

RELIABLE

- Excellent sensitivity: 99.6% and specificity: 99.3%
- Each test includes an IgG test
